

- The available escape to personal relaxation in your backyard or on your deck.
- The place to get away and reconnect with people that are close to you.
- The therapeutic session of soaking and massage that can improve your health.
- The beautifully designed product that enhances and expands your daily living space.
- The consistent construction that creates the most reliable hot tub you can buy.
- The superior hydrotherapy system to target and direct the most effective gallons-per-minute flow performance of therapeutic water precisely where you want it.

- The simple and sophisticated water care management system to assure pristine water and repeated enjoyment as you use the hot tub day after day, week after week.
- The satisfaction of purchase and ownership from Marquis' professional integration of superior design, construction, operation, service and warranty.

Selecting a great hot tub can improve your life in so many ways. Please read on to learn more about all that makes Marquis a great hot tub. We hope you will then decide to make *The Ultimate Hot Tub Experience!* **Your** hot tub experience.

Visit **www.marquisspas.com** for even more insight into the products and benefits that await you.

hydrotherapy comes from a system that creates a controllable high flow of water through jets to massage muscles and tissue on the body. But simply counting jets in a hot tub does not tell you if the hydrotherapy is any good. In fact, many jets often means the water flow through each jet gets very weak and delivers limited therapy...because they are all supplied by the same pump. So don't just count jets when you look for great therapy.

It's not the 'horsepower' number on a pump. High pump horsepower may create higher force for the water that is moved...but it may not move more water. Water movement comes from three things working together to create the best system for massage benefits:

- 1. GPM (gallons-per-minute) pushed by a pump,
- 2. the water capacity that fits through the tubing,

3. and the amount of water that can escape through the jet openings.

### Look for High-Flow...avoid high pressure.

High-Flow means more water mass is coming out to massage you. Marquis' system of pumps, High-Flow tubing, and HK ™ (hydrokinetic) jets of various sizes are combined with a unique system of zone controls to channel more water exactly where you want it to deliver more massage benefit. Other brands use high pressure from pumps, tubing and jets to force water at high speeds…but it doesn't move as much water at you. The result is that needle-like feeling against your skin from the high pressure pushing the water…you won't want to sit in front of that pressure for long. High-Flow massages more deeply without that surface irritation from high pressure.

High Output Therapy™ is our unique High-Flow system. We carefully plan the gallons-perminute laminar flow from our pumps, channeled by our 3-2-1 Zone Control valves (to customize flow to specific areas), through High-Flow tubing, and our various HK™ proprietary jets. This high output GPM flow provides the best massage to each seat.

We identify the H.O.T. Seat™

for each hot tub model in our line to help you know where the maximum GPM and hydrotherapy benefit can H.G.T.
SEAT.
HIGH OUTPUT THERAPY

be found in that tub. And in various models you will find additional Shoulder, Lumbar, Foot, and Therapy Pillar 'H.O.T. Zones™' to give you the industry's best targeted control system for hydrotherapy. When specific areas need targeted massage

therapy, Marquis truly has *The Ultimate Hot Tub*Experience!<sup>TM</sup>

New for 2013...MicroSilk®! Add the revolutionary MicroSilk® Skin Care System to select Signature models and expand your hot tub to a health spa beauty experience! Touted as the 'fountain of youth', this anti-aging therapy helps make your skin look and feel years younger. Marquis hot tubs are the best choice for the MicroSilk® system because we have the most effective water care system to work with it. MicroSilk® works deep to draw impurities out of the skin. Marquis' system then works better than any brand in the industry to remove those impurities out of the water...leaving pristine water for the next time you soak. Marquis with MicroSilk® is a beautiful choice.

## Livater care

- 1. Vortex skimmers skim surface contaminants such as body oils and lotions, then directs them into the filter cartridges which trap contaminants and particulates.
- 2. Water is also drawn from the footwell through a safety suction fitting.
- 3. Water is forced upward through the filter to trap debris that may settle at the bottom of the spa, thus, mixing, recirculating and filtering all the water, surface to

- floor. This translates to circulating about 24,000 gallons of water daily! (Based on using a MP160 pump.)
- 4. Filtered water is drawn into primary jet pump.
- 5. Water is routed through the highflow heater assembly.
- 6.Ozonator's high-output, energy efficient design converts oxygen into activated ozone gas. Mazzei® injector mixes ozone with water which is then introduced into the

- mixing chamber.
- 7.Bacteria and other contaminants are oxidized before ozone converts back to oxygen.
- 8.Residual ozone and converted oxygen are reintroduced into the spa water through a dedicated fitting for maximum efficiency.
- 9. Water passes through the in-line sanitation system and is treated with natural minerals and bromine before reentering the spa.

# CONVENIENCE MARQUIS. The ULTIMATE Hot Tub Experience!

Less maintenance - cleaner water. Clean water seems like an obvious requirement for hot tubs: but not all water care systems are built alike. The Ultimate Hot Tub Experience!™ means the very cleanest water possible with the very simplest of requirements for an owner's time and effort to maintain the hot tub. You no longer need a chemistry degree to care for spa water - Marquis' ConstantClean™ water management and SmartClean™ filtration systems take care of it for you!

ConstantClean™ is the muscle. Marquis' self-cleaning ConstantClean™ water management system is like cruise control for your hot tub – just set it and practically forget it for up to a month. First, Marquis' exclusive ozone system effectively destroys unwanted elements 3000 times faster than sanitizer alone. Second, the in-line sanitation system uses natural mineral and bromine cartridges to treat your water so it's safe and clean without unpleasant odors or skin irritation.

SmartClean™ is the brain. SmartClean™ software knows when you've used the spa and automatically triggers a cleanup cycle after your soak – that's smart! Plus, you can adjust filtration cycles according to how often you use the spa.

Run it during off-peak hours to conserve energy. Marquis' Vortex skimmer system filters 100% of your water from the spa floor to surface 60 to 160 times a day depending on the spa model. This dramatically reduces the need for surface cleaning or vacuuming. Marquis' clean obsession pays off with lower maintenance and energy costs.

### And let's clear the air about clean water.

You will probably hear somebody claim to have 'chemical free' hot tubs...or how salt water systems are a chemical free way to use a hot tub. The truth remains that every few years somebody new introduces another salt system...another UV system that doesn't 'need' sanitizers...another innovation that replaces the concepts that have protected people and their hot tubs for decades. Then a few years later these revolutionary things go away because they destroy the operating equipment in spas or fail to properly sanitize the water. We will continue to test all such 'innovations' for potential use in our hot tubs...and we still only recommend and warranty what we know is the safest and cleanest concepts for our customers and their hot tubs. Our water care management systems, ozone and sanitizers still provide The Ultimate Hot Tub Experience!™

### The Ultimate Hot Tub Experience!™

incorporates entertainment and experiences for all of the senses...including your audio and video entertainment, chroma-therapy (the effect of light and color on human biorhythms), aroma therapy, and much more.

Adagio™ really rocks. The Adagio™ audio option comes with FM radio and Bluetooth connectivity for all of your Bluetooth enabled music devices. An optional RF Remote control allows you to manage your personal play-list while you are in the hot tub and your music source is safe and dry away from the water. Adagio™ powers subwoofer and pop-up or surface mount speakers (by model) to deliver terrific audio quality to your hot tub entertainment. An Audio Expansion Port upgrade can also provide connectivity for MP3 or other

3.5mm plug devices and thumb drive music files.

The Show with E-Suite™ Entertainment Package takes Adagio™ one step further... to video. The Show model has a location for a retractable E-Suite™ video monitor and a DVD player that provides endless options for entertaining. Incorporating Adagio™ for great sound quality, the E-Suite™ Entertainment Package is the optimum set up for making the hot tub the entertainment center of the patio or deck.

### Light up the night with Constellation™.

Going beyond the base lighting package of our Aqua Ambiance<sup>TM</sup> (primary spa light, water feature lights, filter area light), Constellation<sup>TM</sup> is an upgrade that will take you to the stars and beyond! LED points of light encircle the hot tub below the water line and highlight the exterior in all directions. Constellation<sup>TM</sup> gives you the ability to set your lighting at a favorite color or cycle through varying colors and transitions to entertain and relax you at the same time.

**Aroma Infusions™ takes you away.** Add the relaxing option of aromatic escape to your hot tub experience with Aroma Infusions™. Simply touch the button to release your favorite fragrances into the water as you drift away in bliss. Marquis embraces all of your senses to give you *The Ultimate Hot Tub Experience!™* 

## Single designs (E

The most beautiful hot tubs in the industry. The Ultimate Hot Tub Experience!™ includes the most dynamic designs you can find. The Signature series by Marquis® truly is unique in every way:

- The wide variety of sizes and shapes.
- The organic, flowing design language within the acrylic shells.
- The engineered comfort and ergonomic 'fit' for a wide range of people and body types in the seating.

You get the most distinctive impression whether you are soaking in them or viewing them from outside. Marquis® hot tubs are unlike any box of hot water you find with other brands.

Beautiful exterior spaces. The design experience even expands beyond the hot tub to the many Environments™ pieces of steps, benches, cabinets, tables and stools that coordinate and combine with your hot tub to create an entire additional living area outside your home.

## Comfort & ease

3-2-1 Zone Control valves allow you to select the area of High-Flow jetting you want to activate H.O.T. Zone Therapy™ pillar allows you to massage the front and sides of vour body Waterproof spa controls are inside the spa at your fingertips Entry step/cool down seat provides the perfect perch on which to catch some fresh air The in-line sanitation system is easily accessed from inside or outside the spa Your best foot massage comes from an HK™40 gallonsper-minute rush of water on the soles of your feet The Captain's seat therapy arch features wrist jets to soothe carpal tunnel Marquis' generous reflexology footwell design lets everyone stretch out Integrated arm rests and hand holds provide extra comfort and ease Various High-Flow HK™8, 12, 16 and HK™40 jets target hips, thighs and calves with precision massage H.O.T. Zone Therapy™ shoulder jets provide a professional, upper-back massage H.O.T. Zone Therapy™ lumbar jets relieve lower back pain and stiffness

### Scholesture

Design your perfect spa! Your authorized Marquis® dealer can help with some color combination suggestions. Or visit marquisspas.com to use the interactive Color Chooser. Of course, with the Constellation™ light system you can turn your spa into a full spectrum of colors.

### **Environments™** make the space.

Surround your Marquis® hot tub with custom Environments™. Built by Marquis® with the same exacting quality of craftsmanship and durable materials, the Environments™ perfectly complement your hot tub and add sophistication to your environment.

**Owner's Protection Plan.** Buying a spa is a big decision. That's why Marquis® makes your decision

a little easier – with the most straightforward, comprehensive warranty in the business.

Marquis® was founded in 1980. We've worked hard to build trust with our customers. We are an employee-owned company and each employee takes pride of ownership very seriously. This commitment has led to the highest level of product quality and reliability to produce Marquis® − The Ultimate Hot Tub Experience!™

**Making wishes come true.** Marquis<sup>®</sup> is a proud preferred provider of Make-A-Wish<sup>®</sup>. Since 2000, Marquis<sup>®</sup> and our dealers have helped grant **over 500 wishes** to children with lifethreatening medical conditions.
